MINDS IN THE MAKING

## TRIAGE Research Permission Form, 2008

TRIAGE will be conducting an ongoing research project about science learning for the National Science Foundation during this Academy for Young Scientists program. As part of that program, TRIAGE researchers may survey and interview students and parents as well as observe, videotape activities, and interview students.

The following consents will be in effect from January, 2008 through December, 2008. Please indicate yes or no by placing a check mark in the appropriate box and signing below.

Yes  No

### Video Recorded

Student may be video recorded during TRIAGE activities as a part of the ongoing research about science learning as well as to share our programs and curriculum with the community.

Yes  No

### Interviewed

Students may be interviewed as part of the ongoing research about science learning.

Yes  No

### Surveys/Questionnaires

Student may complete surveys and questionnaires, which will always be reported anonymously, during TRIAGE for educational research purposes.

*I understand I may choose to withdraw my permission for participation in research at any time during the TRIAGE program without losing program participation privileges. If I have any questions or concerns, I know that I may contact Dr. Rachel Reed (526.6032).*
